NIGHT UTILITY WORK IN BEDFORD REQUIRING LANE CLOSURES
U.S. ROUTE 3 BETWEEN MEETINGHOUSE ROAD AND MACY'S

The New Hampshire Department of Transportation announces nighttime water main construction work in Bedford is underway and will require lane closures on U.S. Route 3 for approximately two weeks.

The water main construction is taking place between Meetinghouse Road and Macy's Department Store Sunday through Friday from 8:00 PM until approximately 8:00 AM.

This utility work is part of the NH Route 101/US Route 3 roadway and bridge reconstruction project between the I-293 interchange and Plummer Road in Bedford.

R.S. Audley Inc. of Bow, New Hampshire is the prime contractor for the \$15 million project, which is scheduled to be completed in 2006.
